Performance Management Module

Appraisal Plans

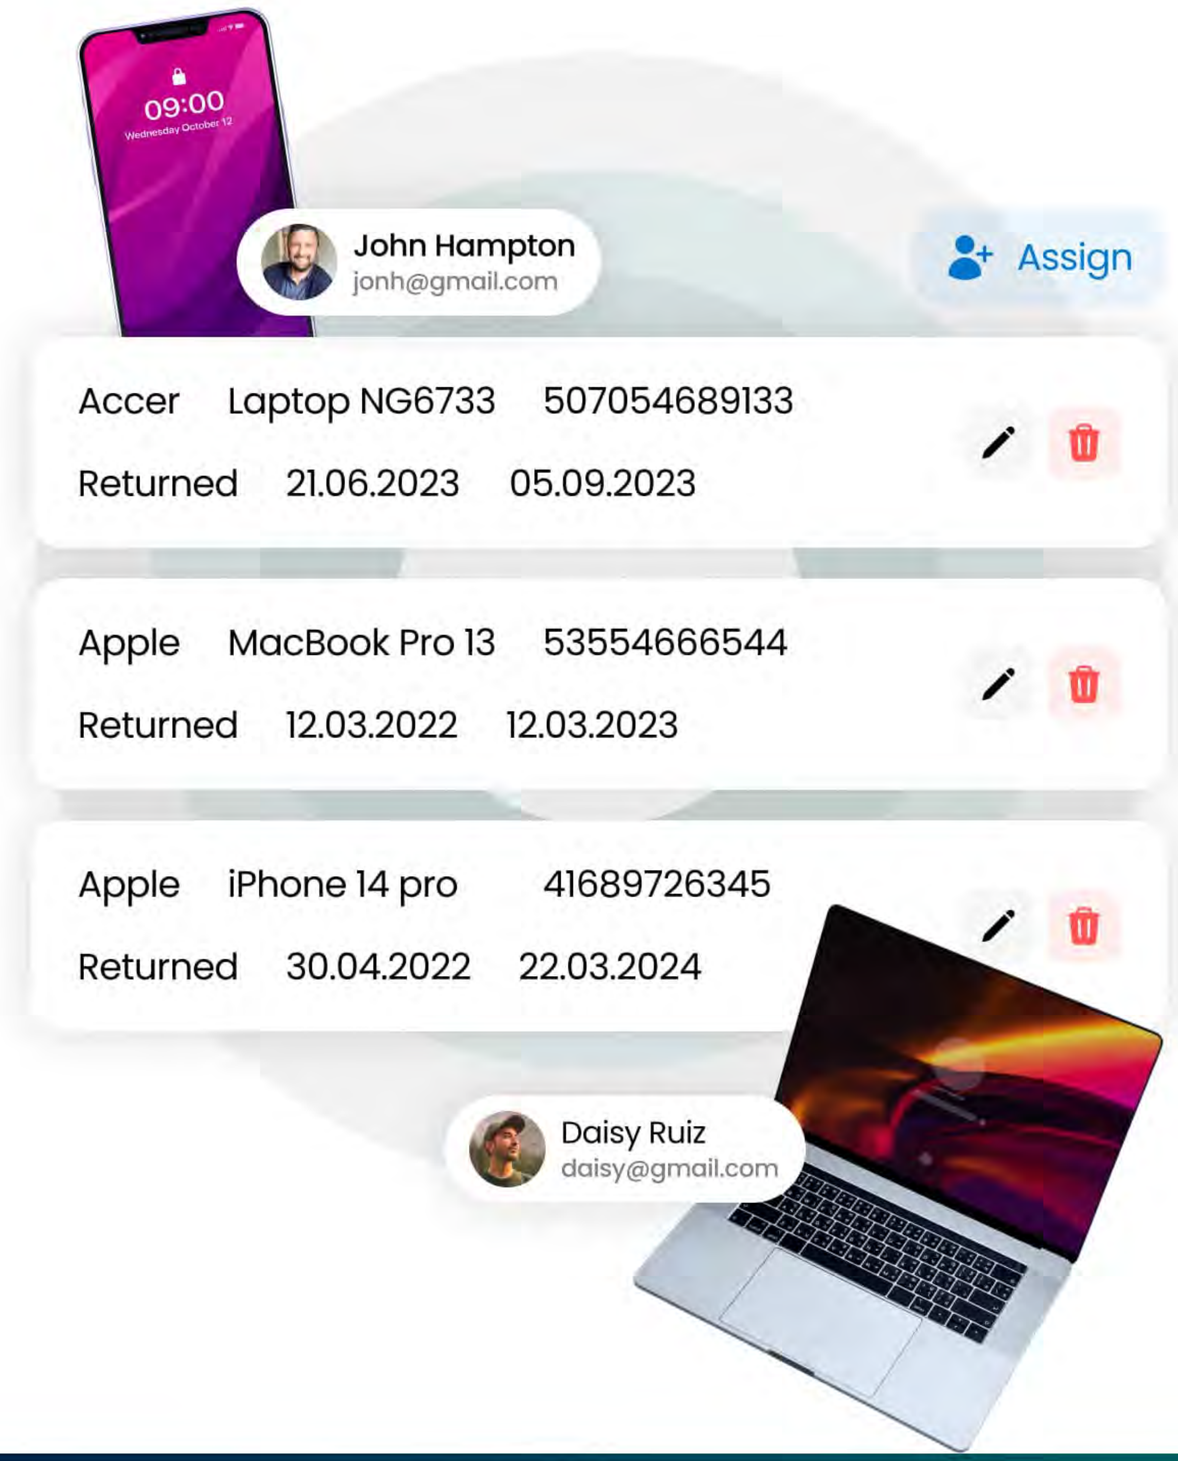

- Make assessment strategies, develop surveys and interviews, set the date of the evaluation, and conduct recurring evaluations. Self-evaluation is also an option for employees.

Document Management

- Allows to generate documents like Salary Certificate, Offer letter automatically.
- Allows to Dynamically add fields like Employee Name, Manager Name, Bank Name etc to the document format.
- Allows you to download the document after selecting the fields to be added.
- Search and View all documents

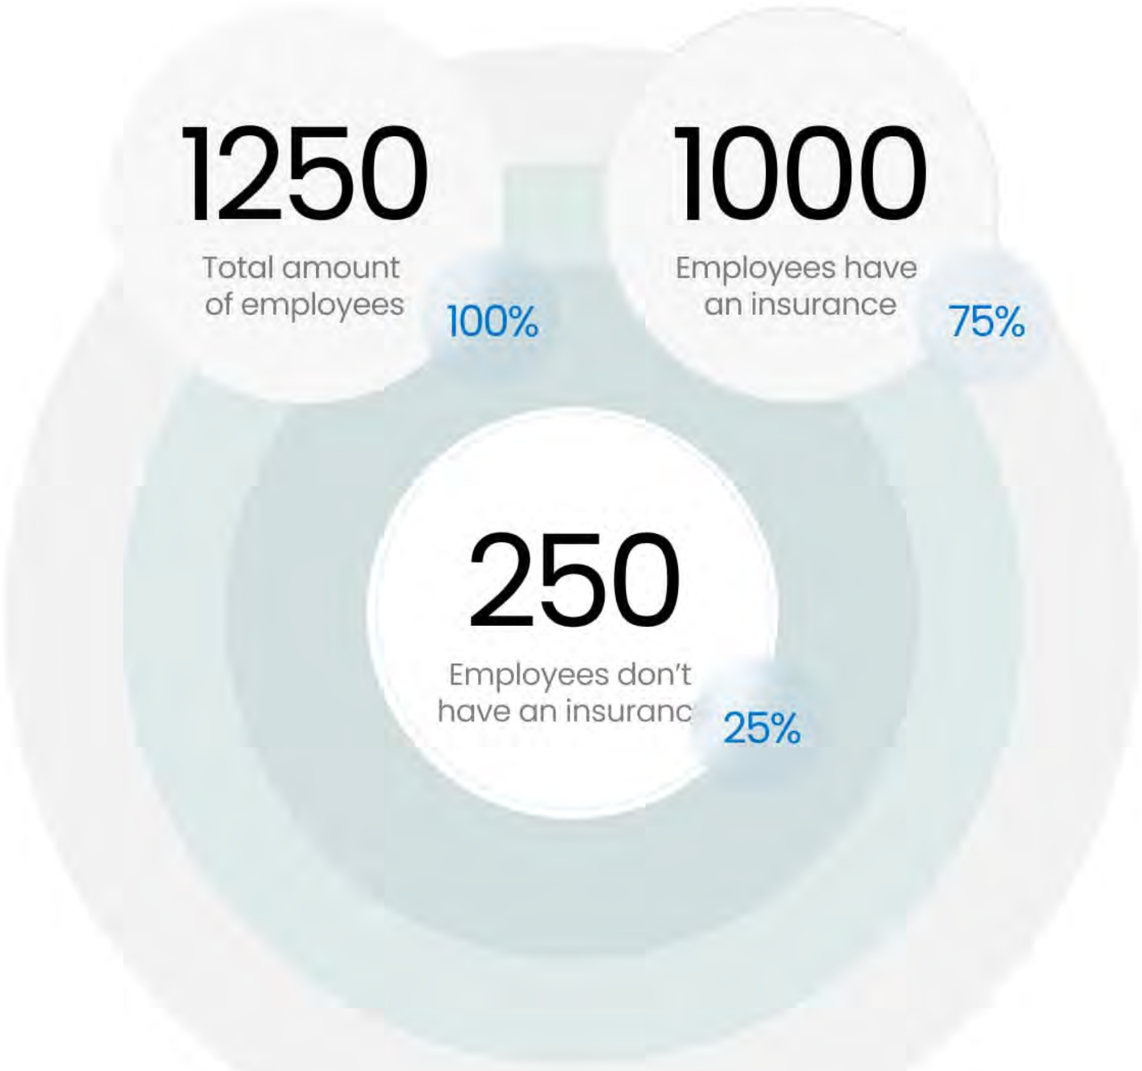

Asset Management

Keep and eye on the assets the company has given to each of your employees. Create a detailed list of all the fixed assets that the company owns as well as the assets you wish to allocate.

You may provide your staff access to their assets. Once the employee leaves the organization, you may then maintain a precise record of the assets returned.

Insurance Management

- Lists all users by company that are eligible for an insurance.
- Allows to upload insurance documents, insurance number, assign insurance type to the employee

Aliev Imrakh alievimrax@gmail.com	General network	485902rf033	12.10.2022		File. - png	

Leave Management

- Lists the leave requests by the company.
- Allows to filter the list of leaves by status (Pending, Approved, Rejected)
- On select of a request shows the available days of leaves of the user who requested.
- Allows to approve, reject or cancel a leave request.

Leaves

Annual Leave
0/24
Available: 24

Parental Leave
0/5
Available: 5

Sick Leave
0/8
Available: 8

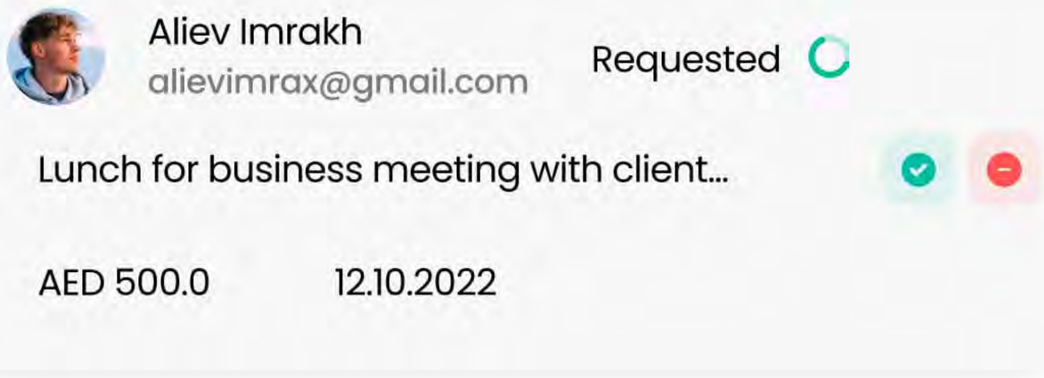

Compassionate Leave
0/3
Available: 3

Sabbatical Leave
0/4
Available: 4

Hajj Leave
0/30
Available: 30

Study Leave
0/0
Available: 0

Expense Claim Management

- Lists the reimbursement requests by the company.
- At the top lists the number of reimbursement requests that are pending,approved or rejected.
- On select of a request allows to approve or reject it and also add comments.
- These accepted reimbursements are then made available to be added in employee payrolls.

Payroll

- Automate important processes and free your human resources from monotonous duties. Wages Protection System simplifies your payroll (WPS).
- Using the power of Payroll Automation, you can save time and money. With only one click, you can generate thousands of payrolls.

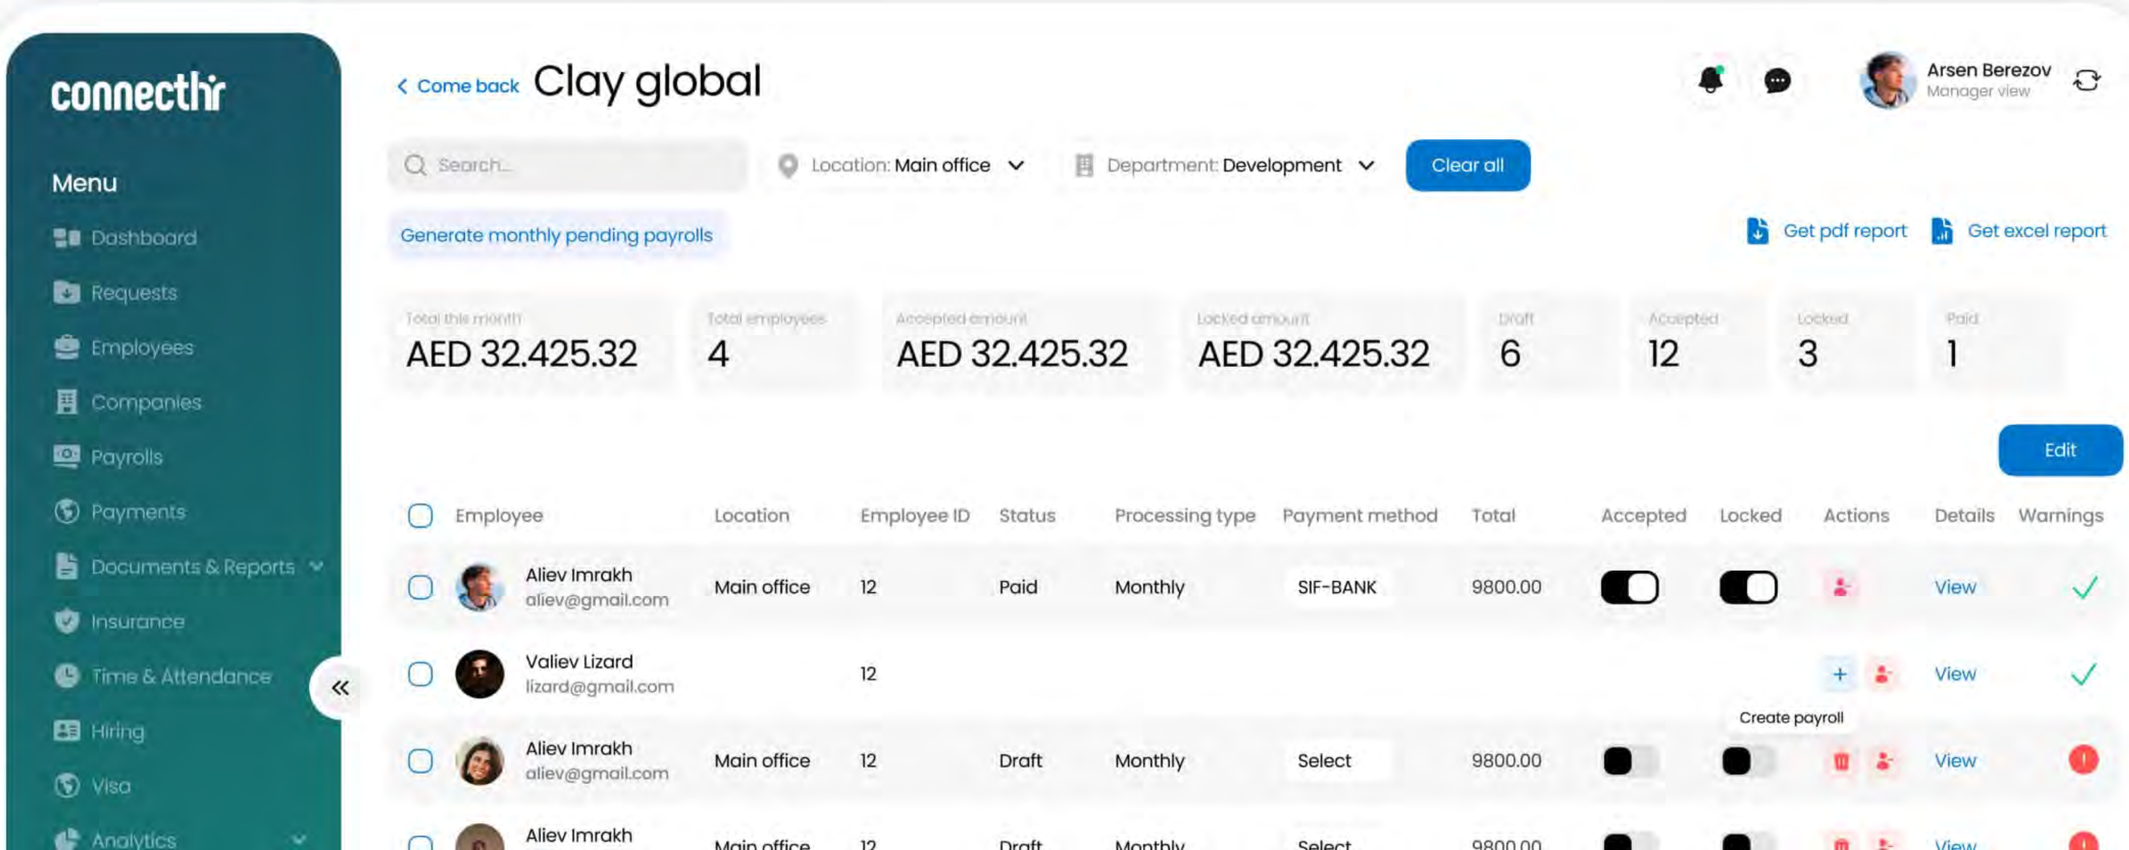

Payroll Management

- Lists all users by company that are eligible for payroll.
- Allows the user to create a default payroll for a employee.
- The payrolls are created every month based on the default payrolls.
- Allows to accept and lock a payroll and make it available for payment.

Payroll Dashboard

- Lists all the companies eligible for payroll for the specified month.
- List all the employees eligible for payroll on select of a company.
- Allows to create a user payroll if not created yet for the month.
- Allows to “ACCEPT” and “LOCK” a user payroll.
- Allows to exclude a user payroll for the current month.
- Allows to generate a PDF or an excel report of all the payrolls for a specific company for the selected month.

Report Builder

- Report Builder is a module that helps you build your own reports. ConnectHR includes many pre-defined reports, but Report Builder is the tool to use when you want to make your own user-defined Reports.
- Select your required fields, set the order of fields and name your report. That's it. You have just created a new report of your choice !
